

ABOUT THE INTERIM CHARTING COMMITTEE:

The Interim Charting Committee, consisting of the Interim Governance Committee and the Interim Planning Committee, is a temporary body responsible for establishing the foundational structures and processes of the 12-to-24 Collaborative. It will operate for two years from the charter signing date. During this period, the voting rules and structure specific to these interim committees will apply. After this period, the committee will be dissolved, and its responsibilities and standard voting rules will transition to the permanent Steering Committee as outlined in the charter.
